eServGlobal announces new contract win

Paris: 22 April 2016

eServGlobal (LSE: ESG.L & ASX: ESV.AX), the provider of end-to-end mobile financial services to emerging markets, announces it has won a significant contract to supply its PayMobile software. This follows the announcement of a large contract made to the market on 6 April 2016. The project includes the provision of electronic recharge, voucher management and IVR (Interactive Voice Response) solutions for a mobile network operator.

The contract is valued at €6.0m over five years, with approximately €2.5m to be recognised within the current financial year. The Company maintains its guidance for FY16 which is to achieve a small EBITDA surplus for the core business with some revenue growth and a substantially lower cost base.

John Conoley, Executive Chairman, eServGlobal, said, “We have previously stated that the core business of eServGlobal would begin to recover in Q2 2016. Today’s announcement shows that recovery is indeed underway. This new win also gives us confidence in the ongoing turnaround of the core business. Our improving sales process and activity is growing our pipeline and range of opportunities and should enable continued momentum throughout the rest of the year.”
